\$45,000 NOTES MYSTERIOUSLY LOST OR STOLEN

Papers Gone from Safe of
Lumber Dealer Chester Only
Valuable to Him.

Button police are seeking today to furnish the mystery of the disappearance of a \$5,000 worth of promissory notes, of value to no one but the owner, from the office of William H. Chester, at No. 15 Duane street. The notes are believed to have been taken from the safe, which has been locked, since about May 1, Chester says there is a possibility they were lost.

The last person known to have seen the securities is Miss Ellen Mattman, cashier in Mr. Chester's office. She placed the notes in the safe, she says, last Wednesday morning. In the afternoon they were missing. The safe was unlocked all day.

The bundle numbered eleven promissory notes, each for \$500, was valued at \$5,500.

When the loss was discovered Mr. Chester notified Inspector Harris of police headquarters. Pending investigation, the boat was kept quiet until to-day. The police admit they are at sea in the case. Every nook and cranny in the office of Mr. C.

been put away, the only person in the case besides the cashier was Miss Lay Hinchelton, another employee, but Miss Lay Hinchelton did not even see Miss Eastman count them. Nor did she see them being taken away during the day.

The notes were tied up in a large pocketbook or leather case which was used solely for that purpose. Pocketbook and all contents appeared.

"In view of the fact that the notes were of value only to us," said Mr. Chittenden, "we cannot understand why any one should steal them. If they were stolen

"We do not know for certain that the notes were stolen. It is possible they have been mislaid, or lost, although the cashier is certain she placed them in safe. We haven't the remotest idea who they went."
